

Accidents can happen anytime, anywhere

The economic impact of unintentional injuries is about \$6,600 per household (including out-of-pocket, higher prices for goods, services and taxes).

National Safety Council, Injury Facts, 2014

Accidents are usually followed by a series of bills. Even if you have good insurance, you may still have to cover out-of-pocket costs, such as:

- Doctor bills
- Ambulance fees
- Hospital expenses

Every 10 minutes, more than 700 Americans suffer an injury severe enough to seek medical help.

If you suffer from a fracture, dislocation or other covered accidental injury, accident insurance can help offset unexpected medical expenses, such as emergency room fees, deductibles and co-payments. Coverage options are available for you, your spouse and your dependent children.
